Education

Rekayasa Perangkat Lunak

SMK Fatahillah Cileungsi

2020 – 2023

Skills

- Teamwork
- Time Management
- Database programming
- Web app development
- Linux
- Intranet development
- Networking
- IoT

Projects

Backend Mobile App Attendance

a program that I created is an endpoint to handle requests from mobile that does attendance for IOS and Android

- Dataverse • Microsoft Powerautomate • Sharepoint Online

Backend WebApp Attendance

a program that I made to handle big attendance data that will be used in a webapp where the daily data can reach up to tens of thousands of data

- Dataverse • Microsoft Powerautomate • Sharepoint Online
 - Laravel

Fullstack Time Attendance

here I built an attendance application for schools that is integrated with IoT and WhatsApp as notifications that parents receive, along with making the attendance tool itself along with its 3D model, and the server maintenance handle along with the domain configuration for access.

- MySQL • NextJs • Express • Ubuntu • IoT
